URGENT APPEAL

UN Security Council
UN Human Right Commissioner
USA Secretary of State
European Union Human Rights Commissioner

Dear Sir/Madam,

We thank the current concern of the international community including the USA government.

However, the situation is becoming the east African threat as the Eritrean soldiers continued occupying Oromia and intensifying the killings of civilians, burning houses and crops, raping women, and taking properties of the people.

The Ethiopian government currently taking extremely brutal actions against the Oromo people particularly focusing on youth and killed 17 years old Amanuel Wondimu in Dembi Dollo town May 11, 2021¹ and again 17 years old Margaa Adamsu Gute in Gimbi June 12, 2021².

The Oromo political leader (The Oromo Liberation Front Chairman) Mr. Dawud Ibsa is under house arrest since April 1st, 2021, and nobody knows in what situation he is in currently including his health since the Ethiopian government security forces broke and entered his house during the nighttime May 3, 2021.

I am writing this appeal letter out of the grave concern of the continuous human rights violation in Ethiopia.

Endless mass killings and arbitrarily arrests particularly the undeclared war targeting the Oromo people and the war declared against the Tigray people is the indication of the beginning of the genocidal action by the current Ethiopian leaders.

The current PM of Ethiopia Dr Abiyi Ahmed is not willing to solve any problem through political discussion rather prefers to imprison the competent political party leaders and decided to conduct the so election by himself. Whereas the election will not give him legitimacy, instead creates another dimension of conflicts.

Currently, State terrorism in Ethiopia is exacerbated against the indigenous Oromo people and peoples of other nations and nationalities, and now the country is on the verge of collapsing.

In all these situations, women and children have suffered unspeakable human rights violations of all nature.

We request the urgent deployment of the UN Security force to protect further human rights violations by Eritrean and Ethiopian soldiers as well as independent investigators to take the criminals to the International Criminal Court.

We appeal to the International Community including the US Government, UN, EU, AU, UNSC, UK, and all human rights organizations to intervene and push the Ethiopian Leaders to release all political prisoners and impose the establishment of the Oromia National Transitional Government.

Sincerely,
